

Civil Engineering Technologist – TRUE Consulting

Location: **Kelowna, BC**

About the Organization

TRUE Consulting has provided engineering and planning consulting services to Municipal, Regional District, Provincial, First Nation Communities, and private sector clients in the central and southern interior of British Columbia since 1986. We are an innovative company committed to helping our clients achieve their project goals. It is our mission to deliver high quality professional services with a focus on creative solutions, technical detail, and adherence to schedules and budgets.

We offer a supportive working environment and culture and believe that a healthy work/life balance is critical to the success and happiness of our people.

TRUE offers an attractive remuneration package and benefits.

About the Opportunity

TRUE is currently looking for Civil Engineering Technologists to join our Kelowna office.

Our preferred candidates will be graduates of a Civil Engineering Technology program or Drafting Technology program. Previous design and construction inspection experience for land development projects or municipal design is a must. The position's duties would consist of:

- Design drafting in AutoCAD Civil 3D, and
- Civil Construction Inspection/Supervision.

The successful candidate will work directly with engineers/contract administrators and will experience variety and opportunity for growth and challenge.
