

Engineer-in-Training (Civil) – TRUE Consulting

Location: **Kamloops, BC**

- **Obtain a position with this dynamic civil engineering and planning services firm.**
- **Work directly with senior engineers; experience variety and opportunity for growth and challenge.**
- **Enjoy an attractive remuneration package plus profit sharing and benefits!**
- **Live and work in a progressive city that offers an exceptional, affordable lifestyle.**

About the Organization

TRUE Consulting (TRUE) has provided engineering and planning consulting services to Municipal, Regional District, Provincial, First Nation Communities, and private sector clients in the central and southern interior of British Columbia since 1986. We are an innovative company committed to helping our clients achieve unprecedented and sustained business results. We strive to deliver professional services with a focus on creative solutions, technical detail, and adherence to schedules and budgets.

As a growing and evolving company, *TRUE* strives to find the right people and aims to keep them. We offer a supportive working environment and culture and believe that a healthy work/life balance is critical to the success and happiness of our people. You will be provided with genuine opportunities for career development and advancement under the guidance of our senior project engineers. This varied and satisfying role will give you the chance to work on a wide range of Municipal projects as you work toward obtaining your professional engineering designation.

About the Opportunity

TRUE Consulting is looking for one or more Engineers-in-Training (EITs) to join our team in Kamloops.

Responsibilities may include:

- Civil design, project management and contract administration
- Assisting professional engineers in carrying out technical tasks requiring accuracy in calculations, completeness of data and adherence to prescribed analysis, design, or computational requirements
- Preparation of project specifications, cost estimates and technical reports
- Establishing and maintaining relationships with clients in order to define their needs, explain technical information, concepts or study results
- Supervising the work of Technical Staff appointed to the project
- Travel within the Interior and Central Interior
- Field work such as facility site inspections and construction inspection

To be successful in the role, you will bring these skills and attributes:

- Excellent communication, technical and problem solving abilities
- Research and technical report writing skills
- Excellent interpersonal skills when working with clients and co-workers
- Team-player
- Good initiative and attention to detail
- Project management and organizational skills
- Desire to learn, grow, take on more responsibility and have a key role in the company

Other Requirements include:

- A Bachelor of Applied Science Degree in Civil Engineering
- Registered or eligible for registration as an EIT with EGBC
- Computer competency, experience with Civil 3D or GIS should be highlighted
- A valid Class 5 B.C. Drivers Licence

About the Benefits

The successful candidate will be rewarded with:

- **Attractive Salary**
- **Profit Sharing**
- **RRSP** Program
- **Flexible** work hours and above average paid time off
- Comprehensive extended **health** and **dental** coverage
- **Paid** Overtime
- Varied opportunities for **professional growth** and **development**
- A **friendly and dynamic team culture**, with various fun-filled Corporate Events
