

Geomatics Technician – TRUE Land Surveying

Location: **Kamloops, BC**

About the Organization

TRUE has provided engineering consulting services in the central and southern interior of British Columbia since 1986. Since that time, our business has evolved, and the company has continued to grow – including the creation of branch offices in Williams Lake, Trail, and expansion to create a Land Surveying Division in 2017. TRUE is currently comprised of a staff of approximately 50 people, spread throughout our three offices.

As a growing and evolving company, we realize that our team is our biggest and most valuable asset. We strive to find the right people to expand our staff capabilities, while offering individuals the opportunity for career development and long-term employment. For more information about TRUE, see www.true.ca.

About the Opportunity

TRUE is currently seeking a detail-oriented Geomatics Technician to join our Kamloops office. Our preferred candidate will be a graduate of either a Geomatics, Civil or CAD Technology program. We are looking for the following skills, strengths, and interests:

- Commitment, energy, and a strong work ethic
- Proficiency with AutoCAD Civil 3D or similar software
- Excellent computer skills and ability to learn new software programs
- Understanding of basic surveying principles and survey plan requirements
- Understanding of Land Titles System and interpreting legal plans considered an asset
- Willingness and flexibility to work in the field from time to time
- Valid BC drivers license

Benefits

TRUE's family-feel has highlighted who we are and our core values. We take pride in being a fun and rewarding place to work. Our management team is flexible and supportive, recognizing that maintaining a healthy, balanced lifestyle is critical to the success of each staff member. Beyond our office culture, we aim to stay competitive and share our successes with our staff through attractive salaries, extended health and dental coverage, vacation time, profit sharing, RRSP matching, a health/wellness fund, and flexible work arrangements.
