

TRUE Consulting – Intermediate Civil Engineer

Location: **Trail, BC**

About the Opportunity

TRUE is currently seeking an experienced Civil Engineer to join our Trail office. This individual will deliver municipal infrastructure and land development projects for our municipal and private sector clients in British Columbia. While the specific role will depend on the individual's experience and interests, some responsibilities may include the following:

- Delivery of municipal infrastructure design projects including roads, water, sanitary, and stormwater
- Modelling of municipal water systems using WaterCAD
- Modelling of municipal sanitary sewer systems using PCSWMM
- Stormwater analysis using PCSWMM or HECRAS
- Conduct field inspections of civil construction
- Contract Administration of MMCD Contracts
- Project management, liaising with clients, and managing project teams of other professionals, EITs, and technologists
- Travel to project sites within the Kootenay Region of BC

Located on the Columbia River in the West Kootenays, Trail offers small-town hospitality, an affordable lifestyle, and outstanding outdoor recreation to its approximately 8,000 residents. Trail's diverse community includes arts and culture activities, stunning natural surroundings, and a stable and diverse economy including mining, health care, tourism, education, and more. Our team in Trail currently includes two Professional Engineers and one design technologist with a focus on providing engineering services to local government clients in the West Kootenays.

About You

Our ideal candidate will possess the following qualifications, strengths, and interests:

- Registered or eligible for registration as a Professional Engineer with EGBC
- 5-10 years of experience in municipal engineering in a consulting or municipal environment
- Experience in WaterCAD, PCSWMM, AutoCAD Civil 3D, and ESRI are preferred
- Experience with contract administration and MMCD is considered an asset
- Experience in asset management is considered an asset
- Strong written ability with demonstrated report writing skills
- Ability to lead, manage, and motivate project teams
- Ability to contribute positively to a small staff office environment.
- An outgoing, positive personality with client-driven perspective
- Excellent organization and planning skills
- Commitment, energy and a strong work ethic
- Valid Class 5 Drivers License is required

TRUE Consulting – Intermediate Civil Engineer

Location: **Trail, BC**

About TRUE

TRUE has provided engineering, land surveying and planning consulting services to our municipal, First Nation and private clients throughout the interior of British Columbia since 1986. We now have offices strategically located in Williams Lake, Kamloops, Penticton and Trail in order to efficiently support our clients. We are committed to the long-term success of our clients and strive to deliver professional service with a focus on creative and practical solutions. At TRUE, our core values are Our People, Client Service, and Integrity.

As a growing and evolving company, we realize that our team is our biggest and most valuable asset. Since 1986, TRUE's family-feel has highlighted who we are and our core values. We take pride in being a fun and rewarding place to work, even at the busiest times. Our management team is flexible and supportive, recognizing that maintaining a healthy, balanced lifestyle is critical to the success of each staff member.

Beyond our office culture, we aim to stay competitive and share our successes with our staff through attractive salaries, extended health and dental coverage, vacation time, paid overtime, profit sharing, RRSP matching, annual health & wellness benefit, and flexible work arrangements.
