

TRUE Consulting – Civil Engineering Summer Student

Location: **Williams Lake, BC**

About the Opportunity

TRUE is currently seeking a Civil Engineering Student to join our Williams Lake office in the summer of 2021. Our preferred candidate will be interested in gaining experience in the civil / municipal engineering sector. This individual will support our team of Professional Engineers and technologists to deliver all aspects of municipal infrastructure projects to our municipal and private sector clients.

While the specific role will depend on the individual's experience and interests, some responsibilities may include the following:

- Conduct field inspections of civil construction including roads, water, sanitary, and stormwater
- Support the project team through record keeping of construction activities and contract administration
- Conduct surveys using robotic total station and GPS survey equipment
- Utilize AutoCAD Civil 3D for drafting of municipal infrastructure
- Liaising with contractors and the project team regarding project schedule and construction activities
- Working with diverse teams of Professional Engineers, EITs, and technologists
- Travel to project sites within British Columbia.

Williams Lake is located in the heart of the Cariboo Region and has a population of approximately 11,000, with more than 25,000 in the surrounding area. Only 550 km from Vancouver, Williams Lake offers a large year-round selection of activities including fishing, hiking, mountain biking, downhill and cross-country skiing, snowmobiling, and water sports on many of the surrounding lakes. Our team in Williams Lake currently includes two Professional Engineers as well as five technologists and other technical staff.

About You

Our ideal candidate will possess the following qualifications, strengths, and interests:

- Currently enrolled in a Civil Engineering or Civil Engineering Technology program
- Experience or training with AutoCAD Civil 3D is preferred
- Experience, training, or willingness to learn the use of robotic total station or GPS survey equipment
- Experience with municipal infrastructure is an asset
- Experience with field inspections is an asset
- Strong written English and verbal communication skills
- An outgoing, positive personality with client-driven perspective
- Excellent organization and planning skills
- Ability to contribute positively to a small staff office environment.
- Commitment, energy and a strong work ethic
- Valid Class 5 Drivers License required

TRUE Consulting – Civil Engineering Summer Student

About TRUE

TRUE has provided engineering, land surveying and planning consulting services to our municipal, First Nation and private clients throughout the interior of British Columbia since 1986. We now have offices strategically located in Williams Lake, Kamloops, Penticton and Trail in order to efficiently support our clients. We are committed to the long-term success of our clients and strive to deliver professional service with a focus on creative and practical solutions. At TRUE, our core values are Our People, Client Service, and Integrity.

As a growing and evolving company, we realize that our team is our biggest and most valuable asset. Since 1986, TRUE's family-feel has highlighted who we are and our core values. We take pride in being a fun and rewarding place to work, even at the busiest times. Our management team is flexible and supportive, recognizing that maintaining a healthy, balanced lifestyle is critical to the success of each staff member.

For our summer students, we are happy to provide competitive salaries and excellent opportunities for professional growth and development, varying with the individuals interests and skillset.
